Product Heavy Duty Hard Surface Cleaner (609Plus)

Revision date 29 January 2021

Revision 2

Safety Data Sheet (SDS)

according to Regulation (EC) No. 1907/2006

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product name Heavy Duty Hard Surface Cleaner (609Plus)

Product no. HSC609PLUS

Other means of identification No information available.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses Cleaning Agent.

For professional use only.

Uses advised against Any other purpose.

1.3 Details of the supplier of the safety data sheet

Supplier Kitchenmaster NI Ltd

11 Comber Road

Belfast BT8 8AN United Kingdom Tel: 028 90814777

Contact person sales@kitchenmaster-ni.com

1.4 Emergency telephone number

Emergency telephone Emergency Telephone Number: 028 9081 4777 08:30 – 17:00 Monday to Thursday 08:30 –

16:30 Friday

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (EC 1272/2008)

Physical and chemical hazards Me. Corr 1 - H290 Human health Skin Corr. 1C - H314 Environment Not classified

2.2 Label elements

Contains Sodium hydroxide

Detergent labeling <5% amphoteric surfactants <5% non-ionic surfactants

Label in accordance with (EC) no. 1272/2008

Signal word Danger

Hazard statements H290 May be corrosive to metals.

 $\ensuremath{\mathsf{H314}}$ Causes severe skin burns and eye damage.

Precautionary statements Prevention

P260 Do not breathe dust/fume/ gas/mist/vapours/spray.

P280 Wear protective gloves/ protective clothing/eye protection/face protection.

Response

P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

 $P303 + P361 + P353 \ IF \ ON \ SKIN \ (or hair): Remove/Take \ of fimmediately \ all \ contaminated \ clothing. Rinse \ skin \ with \ water/\ shower.$

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.

2.3 Other hazards

None known.

Section 3: Composition/identification of ingredients

3.1 Substance

Not applicable.

3.2 Mixtures

| Name | Product identifier | Regulation (EC) No 1272/2008 | % |
|---|--|---|------|
| Alcohols, C12-13, branched and linear, ethoxylated | CAS-No.: 160901-19-9 EC No.: 931-954-4 | Acute Tox 4 - H302, Eye Dam. 1 - H318, Aquatic Chronic 3 - H412 | 1-5% |
| Sodium hydroxide | CAS-No.: 1310-73-2 EC No.: 215-185-5 REACH Reg No.: 01-2119457892-27-XXXX | Skin Corr. 1A - H314, Me. Corr 1 - H290 | 1-5% |
| 1-Propanaminium, 3-amino- N-(carboxymethyl)-N,N-dimethyl-, N-C- -18(even numbered) acyl derivs., hydroxides, inner salts | CAS-No.: EC No.: 931-296-8 REACH Reg No.: 01-2119488533-30-XXXX | Eye Dam. 1 - H318, Aquatic Chronic 3 - H412 | 1-5% |

The full text for all hazard statements are displayed in section 16.

Composition comments

The data shown are in accordance with the latest EC Directives.

Sodium hydroxide, SCL - Skin Corr. 1A: C >= 5%; Skin Corr. 1B: C >= 2 - < 5%; Skin Irrit. 2: C >= 0.5 - < 2%; Eye Irrit. 2: C >= 0.5 - < 2%.

1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-C8-18(even numbered) acyl derivs., hydroxides, inner salts: Specific Concentration Limits = H318 Eye Damage 1 >10; H319 Eye Irrit. 2 > 4-<=10.

Section 4: First aid measures

Skin contact

$\underline{\textbf{4.1 Description of first aid measures}}$

General information Provide general first aid, rest, warmth and fresh air. As a general rule, in case of doubt or if

symptoms persist, always call a doctor. Seek medical attention for all burns and eye injuries, regardless how minor they may seem. First aid personnel must be aware of own risk during

rescue.

Inhalation Move the exposed person to fresh air at once. If breathing is difficult, oxygen should be

administered by qualified personnel. If not breathing, give artificial respiration. Get prompt

medical attention.

Ingestion Get medical attention immediately. Do not induce vomiting. Provided the patient is fully

conscious, rinse mouth with water and give plenty of water to drink. Never give anything by mouth to an unconscious person. Artificial respiration and/or oxygen may be necessary. Take off contaminated clothing and shoes immediately. Promptly flush contaminated skin

with water. Continue to rinse for at least 15 minutes. Seek medical attention immediately.

Eye contact SPEED IS ESSENTIAL. Avoid contaminating unaffected eye. Wash thoroughly with soft,

clean water for 15 minutes holding the eyelids open. Remove contact lenses if present and

easy to do so. Get medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

General information The severity of the symptoms described will vary dependant of the concentration and the

length of exposure.

InhalationIn case of inhalation product may cause chemical burns of the respiratory tract.IngestionMay cause chemical burns in mouth and throat. May cause severe internal injury.

Skin contact Corrosive. Causes severe skin burns.

Eye contact May cause irreversible eye damage. Symptoms may include redness, lachrymation, swelling

of tissue, burns.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to the physician Treat symptomatically.

Section 5: Fire-fighting measures

5.1 Extinguishing media

Extinguishing mediaUse extinguishing measures that are appropriate to local circumstances and the surrounding

environment. This product is not flammable.

Unsuitable extinguishing media High volume water jet.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products Thermal decomposition or combustion may liberate carbon oxides and other toxic or

irritating gases or vapours.

Unusual fire & explosion hazards In contact with metals generates hydrogen gas, which together with air can form explosive

mixtures

Specific hazards During fire, gases hazardous to health may be formed. In the event of damage to packaging,

floors may become slippery, avoid falls. Water used for fire extinguishing, which has been in

contact with the product, may be corrosive.

5.3 Advice for firefighters

Special fire fighting procedures If possible, fight fire from protected position. Ventilate closed spaces before entering them.

Keep up-wind to avoid fumes. Containers close to fire should be removed immediately or

cooled with water. Do not release runoff from fire to drains or watercourses.

 $\textbf{Protective equipment for firefighters} \ \textbf{Fire-fighters should wear appropriate protective equipment and self-contained breathing}$

apparatus (SCBA) with a full face-piece operated in positive pressure mode. Personal protective equipment conforming to European standard EN 469 will provide a basic level of

protection for chemical incidents.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Do not mix with other chemicals. Wear protective clothing as described in Section 8 of this

safety data sheet. Avoid inhalation of vapours and contact with skin and eyes. Provide adequate ventilation. In case of inadequate ventilation, use respiratory protection. Eliminate all sources of ignition. Do not touch or walk through spilled material. If necessary evacuate

surrounding areas.

For emergency respondersFollow safe handling advice and personal protective equipment recommendations for normal

use of product.

6.2 Environmental precautions

Environmental precautions Avoid discharge into drains, water courses or onto the ground. Spillages or uncontrolled

 $discharges\ into\ water courses\ must\ be\ IMMEDIATELY\ alerted\ to\ the\ Environmental$

Protection Agency or local authority.

6.3 Methods and material for containment and cleaning up

Spill clean up methods Ventilate and evacuate the area. Eliminate all ignition sources. Wear necessary protective

equipment DO NOT touch spilled material! Stop leak if possible without risk. Use nonmetallic tools/containers for clean up. In case of spills, beware of slippery floors and

surfaces.

Absorb spillage with inert, damp, non-combustible material or use a liquid binding material. Place waste material into suitable labelled sealed containers for disposal. Remove waste

promptly to a safe area. Flush with plenty of water to clean spillage area.

6.4 Reference to other sections

Reference to other sections See section 1 for emergency contact. For personal protection, see section 8. For waste

disposal, see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handling

Read and follow manufacturer's recommendations. Use personal protective equipment, see Section 8. Avoid contact with skin and eyes. Do not handle broken packages without protective equipment. Ensure adequate ventilation. If necessary, use local exhaust ventilation.

Use only equipment and materials which are compatible with the product. Do not eat, drink or smoke when using the product. Wash thoroughly after handling. Keep away from heat, sparks and open flame.

7.2 Conditions for safe storage, including any incompatibilities

Storage precautions Keep upright, locked up and out of reach of children. Store in tightly closed original

> container in a cool, dry and well-ventilated place. Avoid contact with metals. Keep away from incompatible materials (see section 10). Keep away from food, drink and animal feeding

Storage class Corrosive storage

7.3 Specific end use(s)

Specific end use(s) The identified uses for this product are detailed in Section 1.2.

Usage description Use only according to directions.

Section 8: Exposure controls/Personal protection

8.1 Control parameters

| Component | STD | TWA (8 Hrs) | STEL (1 | Smins) | Notes |
|------------------|-----|-------------|---------|---------------------|-------|
| Sodium hydroxide | OEL | | | 2 mg/m ³ | |
| Sodium hydroxide | WEL | | | 2 mg/m ³ | |

Ingredient comments

WEL - Workplace Exposure Limits - EH40/2005 Workplace exposure limits. Ireland, Occupational Exposure Limits 2020.

8.2 Exposure Controls

Engineering measures

Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded.

Respiratory equipment

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Use respirators and components tested and approved under appropriate government standards such as CEN (EU). If the respirator is the sole means of protection, use a full-face supplied air respirator.

Self-contained breathing apparatus (EN 133). Respirator with a vapour filter (EN 141). ABEK (EN 14387). Use respiratory protection as specified by an industrial hygienist or other qualified professional.

Hand protection

Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374) is recommended. (EU Directive 89/686/EEC). Selection of the glove material depends on consideration of the penetration times, rates of diffusion and degradation, and concentration specific to the workplace. Gloves must be inspected prior to

Suggested material: Butyl-rubber. Minimum layer thickness: 0.5 mm. Break through time: 480 min. Gloves must be inspected prior to use. Consult manufacturer for specific advice on material. Use proper glove removal technique (without touching glove's outer surface) to

avoid skin contact with this product.

Eye protection Wear safety goggles or face shield to prevent any possibility of eye contact. Use equipment

for eye protection tested and approved under appropriate government standards such as $\ensuremath{\mathsf{EN}}$

166(EU).

Other protection Wear appropriate clothing to prevent any possibility of skin contact. The selected clothing

must satisfy the European norm standard EN 943. Protective clothing should be selected based on the task being performed and the risks involved and should be approved by a

specialist before handling this product.

Hygiene measures DO NOT SMOKE IN WORK AREA! Wash hands after handling. Wash promptly if skin

becomes wet or contaminated. Promptly remove any clothing that becomes contaminated.

When using do not eat, drink or smoke.

Process conditions Keep container tightly sealed when not in use. Ensure that eye flushing systems and safety

showers are located close by in the work place.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

AppearanceLiquid.ColourClear. Green.OdourCharacteristic.

Odour threshold - lower No information available as testing has not been completed.

Odour threshold - upper No information available as testing has not been completed.

pH-Value, Conc. Solution >13

pH-Value, Diluted solution Not applicable as the product is a concentrated solution.

Melting point No information available as testing has not been completed.

Initial boiling point and boiling

range

No information available as testing has not been completed.

Flash point Non-Flammable

Evaporation rate No information available as testing has not been completed.

Flammability state Not applicable as the product is not flammable.

Flammability limit - lower(%) Not applicable as the product is not flammable.

Flammability limit - upper(%) Not applicable as the product is not flammable.

Vapour pressure No information available as testing has not been completed.

Vapour density (air=1) No information available as testing has not been completed.

Relative density $1.02 - 1.04 \text{ kg/l (at } 20^{\circ}\text{C)}$

Bulk density Not applicable as the product is a liquid.

Solubility Soluble in water.

 $\textbf{Decomposition temperature} \qquad \qquad \text{No information available as testing has not been completed.}$

Partition coefficient; n-

Octanol/Water

Not applicable as the product is a mixture.

Auto ignition temperature (°C) Not applicable as the product is not flammable.

Viscosity No information available as testing has not been completed.

Explosive properties Not classified as explosive.

Oxidising properties The product does not meet the criteria to be classified as oxidising.

9.2 Other information

Molecular weight Not applicable as the product is a mixture.

Volatile organic compound No information available as testing has not been completed.

Other information None noted.

Section 10: Stability and reactivity

10.1 Reactivity

Reactivity Reaction with acids. Reactions may occur with strong oxidising agents. This solution can

react with certain metals, such as aluminum, to generate flammable hydrogen gas.

10.2 Chemical stability

Stability Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions

Hazardous reactions For information on hazardous reaction see section 10.1.

Hazardous polymerisationWill not polymerisePolymerisation descriptionNot applicable.

10.4 Conditions to Avoid

Conditions to avoid Heat, sparks, open flames, temperature extremes and direct sunlight. Avoid freezing.

10.5 Incompatible materials

Materials to avoid Strong oxidising substances. Strong acids. Metals. Do not mix with other chemicals unless

listed on directions.

10.6 Hazardous decomposition products

Hazardous decomposition products Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or

vapours.

Section 11: Toxicological information

11.1 Information on toxicological effects

Toxicological information No toxicological information for the overall finished product.

Acute toxicity (Oral LD50)No information available as testing has not been completed.Acute toxicity (Dermal LD50)No information available as testing has not been completed.Acute toxicity (Inhalation LD50)No information available as testing has not been completed.

Serious eye damage/irritation Causes severe eye damage.

Skin corrosion/irritationThe product is classified as a skin corrosion/irritation hazard.

Respiratory sensitisationThe product is not classified as a respiratory hazard. **Skin sensitisation**The product is not classified as a skin sensitisation hazard.

Germ cell mutagenicity The product is not classified as a mutagen.

Carcinogenicity The product is not classified as a carcinogen hazard.

Specific target organ toxicity - Single exposure:

STOT - Single exposure The product is not classified as a single exposure specific target organ toxin.

Specific target organ toxicity - Repeated exposure:

 $\textbf{STOT-Repeated exposure} \qquad \qquad \text{The product is not classified as a repeat exposure specific target organ toxin.}$

InhalationIn case of inhalation product may cause chemical burns of the respiratory tract.IngestionMay cause chemical burns in mouth and throat. May cause severe internal injury.

Skin contact Corrosive. Causes severe skin burns.

Eye contact May cause irreversible eye damage. Symptoms may include redness, lachrymation, swelling

of tissue, burns.

Waste management Dispose of in accordance with local and national regulations. When handling waste,

consideration should be made to the safety precautions applying to handling of the product.

Routes of entry Eyes, skin, ingestion or inhalation.

Target organs Eyes, skin, digestive system, respiratory system.

Aspiration hazards: The product is not classified as an aspiration hazard. **Reproductive toxicity:** The product is not classified as a reproductive hazard.

| Name | LD50 oral | ILDSO dermal | LD50 inhalation |
|--|------------------|----------------------|--------------------|
| 1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-C8-18(even numbered) acyl derivs., hydroxides, inner salts | 2335.00mg/kg Rat | >2000.00mg/kg Rat | |
| Alcohols, C12-13, branched and linear, ethoxylated | >300.00mg/kg Rat | >2000.00mg/kg Rabbit | |

Section 12: Ecological information

12.1 Toxicity

 $\textbf{Acute toxicity - Fish} \qquad \qquad \text{No information available as testing has not been completed.}$

Acute toxicity - Aquatic invertebratesNo information available as testing has not been completed.Acute toxicity - Aquatic plantsNo information available as testing has not been completed.Acute toxicity - MicroorganismsNo information available as testing has not been completed.Chronic toxicity - FishNo information available as testing has not been completed.Chronic toxicity - AquaticNo information available as testing has not been completed.

invertebrates

Chronic toxicity - Aquatic plantsNo information available as testing has not been completed.

No information available as testing has not been completed.

Chronic toxicity - MicroorganismsNo information available as testing has not been completed. **Ecotoxicity**The product is not classified as environmentally hazardous. H

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. The product may affect the acidity (pH-factor) in water with risk of harmful

effects to aquatic organisms.

Eco toxilogical information Not classified as dangerous for the environment according to the criteria of Regulation (EC)

No 1272/2008.

12.2 Persistence and degradability

Degradability The degradability of the product has not been stated.

Biological oxygen demand

No information available as testing has not been completed.

Chemical oxygen demand

No information available as testing has not been completed.

12.3 Bioaccumulative potential

Bioaccumulative potential No data available on bioaccumulation.

Bioaccumulation factor No information available as testing has not been completed.

Partition coefficient; n- Not applicable as the product is a mixture.

Octanol/Water

12.4 Mobility in soil

Mobility Completely soluble in water.

12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment The product does not contain any PBT or vPvB Substances.

12.6 Other adverse effects

Other adverse effects None known.

| Name | Acute toxicity (Fish) | Acute toxicity (Aquatic invertebrates) | Acute toxicity (Aquatic plants) |
|------|-----------------------|--|---------------------------------|
|------|-----------------------|--|---------------------------------|

| ISodium hydroxide | LC50 96 Hours 125.00mg/l Freshwater Fish | | |
|--|---|--------------------------------------|--|
| Alcohols, C12-13, branched and linear, ethoxylated | | EC50 48 Hours 1.00mg/l Daphnia magna | |

Section 13: Disposal considerations

Waste management Dispose of in accordance with local and national regulations. When handling waste,

consideration should be made to the safety precautions applying to handling of the product.

13.1 Waste treatment methods

Disposal methods Dispose in a safe manner in accordance with local/national regulations.

Section 14: Transport information
